INVESTIGATION DATE Current 3-26-85 Last 3-5-85	FROM: IOWA DEPT. OF WATER, AIR & WASTE MANAGEMENT (Use Stamp) REGION NO. 4 316 WALNUT ATLANTIC, IOWA 50022 PHONE 712/243-1934
TO: (Facility Name, Location & Address) Douglas & Lomason Company IAD 041107871 P. O. Box 119 Red Oak, Iowa 51566	Persons Contacted (Name & Position) Jim Grizzard, Jr. - Quality Control Superv. Gary Rhamy - Environmental Manager
RE: (Specify Investigation Purpose Or Cite Rule) RCRA Visit	

OBSERVATIONS/RECOMMENDATIONS

On March 26, 1985, a follow-up visit was conducted at Douglas & Lomason Company to determine the status of the outside storage area. The storage area was relocated to a nearby graveled area. Presently, all of the hazardous waste barrels are neatly stored on pallets with accumulation dates on the labels. The leaking barrels have been repacked into secure drums. At the time of this visit, Mr. Rhamy, Environmental Manager, counted 38 55-gallon drums of D001 and 30 55-gallon drums of F006. An increase in the number of hazardous waste barrels since the last inspection is due to a consolidation of the storage area.

Mr. Jim Grizzard, Jr. stated that individual barrel weights and a warning sign designating the hazardous waste storage area will be completed as soon as possible. Mr. Grizzard also stated that Douglas & Lomason Company is working toward making arrangements for an ultimate disposal site. A reinspection of this site will be conducted in the near future to determine continued compliance with the Federal Resource Conservation & Recovery Act (RCRA).
